8. التوصية النهائية + Checklist اليوم 1

1 القرار الأول — افتح ده دلوقتي

الفيديو الأول والوحيد اللي تبدأ بيه النهارده

Greg Isenberg — How I use Reddit and AI to find winning startup ideas

- يوليو 2024 · 20~ دقيقة ·  530,000+ مشاهدة
-  الأكثر مشاهدة عالمياً في الموضوع ده
-  Greg Isenberg — صاحب Podcast Late Checkout · باع شركات بملايين

• <https://www.youtube.com/watch?v=8vXoI7IUroQ> 

الناتج المطلوب آخر اليوم: ملف `ideas.md` فيه على الأقل 20 فكرة براند مستخرجة من شكاوى حقيقية في .Reddit

Greg Isenberg's 5-Step Idea Discovery Method 2

ملحوظة مهمة: Gummy Search انتقل، البديل الرسمي هو IdeaBrowser.

Step 1 — Find Trending Subreddits via IdeaBrowser

- استخدم IdeaBrowser (بديل Gummy Search).
- ركّز على communities من **10K-100K member** — تجاوب على سؤال "Why now?".
- راقب daily / weekly / monthly growth trends.
- اختار niches فيها **unfair advantage** عندك.

Step 2 — Analyze Subreddit for Problems & Solutions

- ضيف الـ subreddits لـ "audience" واحد في IdeaBrowser.
- **Pain & Anger** — افحص الشكاوى الأكثر تكراراً.
- **Advice Requests** — اللي الناس بتسأل عنه = blind spots في السوق.
- **Solution Requests** — المنافسة الموجودة + الأدوات اللي الناس عايزة تكون موجودة.
- **Key:** دَوِّن الـ themes المتكررة، مش الـ one-offs.

Step 3 — Identify Creators in the Niche

- استخدم Perplexity.ai تلاقي top influencers.
- ابحث على YouTube عن أشهر فيديوهاتهم.
- اقرأ الكومنتات — هي اللي هتفهمك احتياجات الجمهور.
- طبّق على 20-25 فيديو عشان تاخد deep insights.
- النتيجة: تفكر زي جمهورك المستهدف.

Step 4 — Wireframe Your Solution

- على أساس الـ insights، اعمل sketch للمنتج/الخدمة.
- استخدم Framer للـ prototyping السريع.
- اختار اسم com-able + relevant + catchy.
- مثال Greg: **DesignScientist.com** — تصميم مركّز على conversion.

Step 5 — Create Content That Resonates

- استخدم خاصية "Top Content" في IdeaBrowser.
- حلّل اللي بيشتغل في الـ community (Memes? Long-form? Lists?)
- اسأل AI عن content preferences.
- عامل Claude/ChatGPT كـ **"Entrepreneurial Assistant"** 

3 الجدول الزمني الكامل — 20 يوم

الأسبوع	المرحلة	الناتج
الأسبوع 1 (يوم 1-8)	الفكرة + التحقق + المنافسين + بناء البراند	brand-context.md, brand-voice.md, content-pillars.md, competitor spreadsheet, top 3 ideas validated
الأسبوع 2 (يوم 9-14)	الموتور التقني — Claude + Skills + GitHub	Claude Project + 32 Marketing Skill + GitHub MCP + Content calendar + GitHub Action
الأسبوع 3 (يوم 15-19)	موقع 3D + الإطلاق	Vercel + Search Console على Three.js → R3F → Custom 3D website live + Analytics
بعد ذلك (يوم +20)	iterate أسبوعياً وشهرياً	Claude يطلع PRs بتحسينات تلقائياً + شهرياً re-scan للمنافسين

4 الخطة اليومية بالتفصيل (86 تاسك)

#	التاسك	الخطوات	الوقت	الأداة	النتائج
1.1	Watch Greg Isenberg #1	Watch the full ~20m video on Reddit + AI to find startup ideas	20	www.youtube.com/watch?v=8vXoI7IUroQ	Notes file on Greg's 5-step method
1.2	Set up ideas.md file	Create ideas.md with columns: Idea Pain Point Source (Subreddit/URL) Audience Severity 1-5 Date	5	VS Code or Notion	Empty ideas.md ready
1.3	Find trending subreddits via IdeaBrowser	Use ideabrowser.com/join (replaces the discontinued Gummy Search). Focus on 10K-100K member communities — they answer 'why now'. Check daily / weekly / monthly growth trends. Pick .niches where you have an unfair advantage	30	ideabrowser.com/join	5-10 trending subreddits in your niche
1.4	Run Google Reddit hacks (parallel to IdeaBrowser)	Search 'site:reddit.com "is there an app for" [your niche]', 'site:reddit.com "wish there was" [your niche]', 'site:reddit.com "is there a tool" [your niche]', 'site:reddit.com "why is there no" [your niche]	30	Google Search	List of 5-10 explicit unmet needs
1.5	Add subreddits to an 'audience' in IdeaBrowser	Group your 5-10 subreddits into one IdeaBrowser .audience so you can analyze them as a cohort	10	ideabrowser.com/join	Audience configured
1.6	Mine 'Pain & Anger' patterns	Open the Pain & Anger section. Read the top 30-50 posts. Log every recurring complaint. KEY: write .down recurring THEMES, not one-offs	60	IdeaBrowser audience	List of recurring frustrations
1.7	Mine 'Advice Requests' patterns	Open Advice Requests. Capture what people are .asking — these reveal blind spots in the niche	30	IdeaBrowser audience	Top 10 question themes

#	التاسك	الخطوات	الوقت	الأداة	النتج
1.8	Mine 'Solution Requests' patterns	Open Solution Requests. These reveal the competitive landscape and tools people wish existed = direct idea fuel	30	IdeaBrowser audience	Top 10 'I wish a tool existed for X' themes
1.9	Convert pain points to ideas	Turn each pain point / advice / solution request into a 1-line brand idea	30	Your brain + ideas.md	At least 20 ideas in ideas.md

#	التاسك	الخطوات	⌚	الأداة	الناتج
2.1	Watch Greg Isenberg #2 (FULL Blueprint)	Watch the June 2025 deep-dive (covers ChatGPT history audit + Google Reddit hack + friction-point audit)	30	www.youtube.com/watch?v=F7MxPxNbFUw	Notes
2.2	ChatGPT/Claude history audit	Open your AI chat history; mark any question/topic you repeated 3+ times	30	ChatGPT/Claude history	5-10 recurring problems
2.3	Friction-point audit	For 1 day, log every time you copy-paste between two tools/apps	continuous	Notes app	List of automation opportunities
2.4	Find creators in the niche via Perplexity	Use perplexity.ai to find the top influencers in your niche. Ask: 'Who are the top 10 YouTube creators in [niche] in 2026'	20	perplexity.ai	List of 10-15 creators
2.5	Watch top videos in the niche	For each creator, find their 2-3 most popular videos. Aim for 20-25 videos total across the .creators	240 (split)	YouTube	Notes per video
2.6	Read comments for audience insight	On each of the 20-25 videos, read the top 30 comments. Capture: What are people praising? Complaining about? Asking for? This makes .you THINK like your audience	120	YouTube comments	Audience insight log
2.7	Add new ideas to ideas.md	Combine new ideas from comments + ChatGPT history + friction audit. Aim for total 30-40 .ideas	15	ideas.md	30-40 ideas total

#	التاسك	الخطوات	⌚	الأداة	النتائج
3.1	Watch Amardeep Parmar	Step-by-step validation guide	25	www.youtube.com/watch?v=iTZIM4AIGZQ	Notes
3.2	Watch FLAME 4-Pillar	Quick scoring framework	4	www.youtube.com/watch?v=MwfrxWVtshg	Notes
3.3	Score every idea	Score each idea 1-10 on: Market Demand, Ease to Build, Revenue Potential, Personal Fit	90	Spreadsheet	All ideas scored
3.4	Pick Top 3	Sort by total score; pick top 3	15	Spreadsheet	Top 3 ideas
3.5	Demand check	For Top 3: search Google Trends, count 1-star competitor reviews, browse complaint posts	60	trends.google.com , competitor reviews	Demand evidence per idea
3.6	Wireframe your solution	Sketch out your product / service. Use Framer (framer.com) for fast prototypes. Come up with a catchy relevant name (Greg's example: .DesignScientist.com)	90	framer.com	page-1 wireframe + working name
3.7	Pick #1 idea	Commit to one idea to research deeper	10	Yourself	One chosen idea

#	التاسك	الخطوات	⌚	الأداة	النتائج
4.1	Watch Access Genie	22m step-by-step competitor analysis with Osum + SEMrush	22	www.youtube.com/watch?v=9QcRcRuVCfI	Notes
4.2	Watch Local Market AI	Local market analysis with AI + Google Maps	15	www.youtube.com/watch?v=RVQSTZJLrUw	Notes
4.3	List 5-10 competitors	Direct + indirect + SEO competitors (search Google, Maps, marketplaces, social)	60	Search	Competitors list
4.4	Spreadsheet template	Create columns: Competitor Type Website Pricing USP Strengths Weaknesses Marketing Channels Reviews Sentiment Backlinks	15	Sheets	Template ready
4.5	Run Osum reports	Free trial; generate report per top 3 competitors	30	osum.com	3 competitor or SWOTs
4.6	Run SEMrush	Free trial; check traffic, keywords, ads	30	semrush.com	Traffic & keyword data
4.7	Facebook Ad Library	Pull every active competitor ad	30	www.facebook.com/ads/library	Ad inventory
4.8	Identify gaps	Document: features they all have, features none have, complaints customers repeat	45	Sheets	Gaps + opportunities
4.9	Refine your idea	Adjust your idea/positioning based on the gap	30	ideas.md	Sharper idea

#	التاسك	الخطوات	الوقت	الأداة	الناتج
5.1	Watch Marty Neumeier	What is Branding?' deep dive'	30	www.youtube.com/watch?v=dpZfNNYUZEc	Notes
5.2	Watch Learn With Shopify	step branding overview-7	10	www.youtube.com/watch?v=4xnLp9A8G_U	Notes
5.3	Answer Neumeier's 5 questions	Who are we? What do we do? Why does it matter? ?Who is it for? What's our Zag	30	brand-context.md	brand-context.md draft
5.4	Decide Personal vs Business brand	Apply: 'If I removed the products/services, would 'people still follow me	15	brand-context.md	Brand type decided
5.5	Analyze 'Top Content' in the community	Use IdeaBrowser's top-content view (or scan top Reddit posts of all time in your subreddits). What format wins? Memes? Long-form? Polls? Stories? .Capture patterns	45	ideabrowser.com/join	Content patterns log
5.6	Ask AI about content preferences	Ask Claude/ChatGPT: 'Given these top-performing posts in [niche], what content style does this audience love? Do they prefer memes, long-form 'essays, listicles, or screenshots? Why	20	Claude/ChatGPT	Content style guide

يوم 6 — Brand Build (Caleb 1/3) (~2.6 ساعة) July 17

#	التاسك	الخطوات	الوقت	الأداة	الناتج
6.1	Caleb Ralston 0:00-1:30	Sections: Brand Journey Framework, Positioning, Why people listen, Differentiation	90	www.youtube.com/watch?v=uJ8Pg6t_iho	Notes
6.2	Download workbook	Get Caleb's free workbook	5	calebralston.com/startyourbrand	Workbook PDF
6.3	Fill: Credibility Bank	List your wins/proof	30	Workbook	Credibility Bank done
6.4	Fill: Differentiation	Identify your contrarian (not controversial) belief	30	Workbook	Differentiation done

يوم 7 — Brand Build (Caleb 2/3) (~2.8 ساعة) July 17

#	التاسك	الخطوات	الوقت	الأداة	الناتج
7.1	Caleb Ralston 1:30-3:00	Sections: Content Strategy, Cadence, First 3 Videos	90	Same video	Notes
7.2	Pick 1-2 platforms	Choose where to publish (mistake = picking 5)	20	Workbook	Platforms decided
7.3	Plan first 3 videos/posts	Use Caleb's 4Cs + Wrapping Paper framework + the content style from Day 5.6	60	Workbook	content 3 drafts

يوم 8 — Brand Build (Caleb 3/3) (~3.3 ساعة) July 17

#	التاسك	الخطوات	الوقت	الأداة	الناتج
8.1	Caleb Ralston 3:00-5:05	Month-by-month case study + Operating System	120	Same video	Notes
8.2	Build brand-voice.md	adjectives + 5 do's + 5 don'ts + 3 before/after examples	45	brand-voice.md	Voice guide
8.3	Build content-pillars.md	content pillars; aligns to brand- 3-5 context.md	30	content-pillars.md	Pillars defined

يوم 9 — Tooling Setup (~1.8 ساعة) July 17

#	التاسك	الخطوات	الوقت	الأداة	النتائج
9.1	Install Node.js + Git + VS Code	Latest stable; configure git user.name & user.email	30	nodejs.org / git-scm.com	Toolchain ready
9.2	Install Claude Desktop + CLI	Sign up Claude Pro/Max if affordable	30	claude.ai/download	Claude installed
9.3	Install Docker Desktop	Required for MCP servers	20	docker.com	Docker running
9.4	Create GitHub PAT	Scopes: repo, workflow, read:org	10	github.com/settings/tokens	PAT saved securely
9.5	Create [BrandName]-hq repo	Initialize git repo with brand-context.md / brand-voice.md / CLAUDE.md	15	GitHub	Repo live

يوم 10 — Claude Setup (~1.7 ساعة) July 17

#	التاسك	الخطوات	الوقت	الأداة	النتائج
10.1	Build Claude Project	Project: '[Brand] HQ'. Upload: brand-context.md, brand-voice.md, content-pillars.md, competitor analysis sheet, wireframe from Day 3.6	30	Claude	Project ready
10.2	Install Anthropic Skills	Run /plugin marketplace add anthropics/skills	15	Claude Code CLI	Skills installed
10.3	Install Marketing Skills	npx skills add coreyhaines31/marketingskills (page-cro / copywriting / seo-audit / ai-seo / social-content)	20	GitHub coreyhaines31/marketingskills	Skills installed
10.4	Add GitHub MCP	Run claude mcp add github with PAT	20	github/github-mcp-server	GitHub MCP working
10.5	Add Firecrawl MCP	For ethical web scraping	15	firecrawl.dev	Firecrawl MCP active

يوم 11 — Content Engine (~4.3 ساعة) 17 يوليو

#	التاسك	الخطوات	⌚	الأداة	النتائج
11.1	Watch Tech With Tim Claude Code	Skills + MCP + Subagents	90	www.youtube.com/watch?v=uogzSxOw4LU	Notes
11.2	Build content calendar	Use Master Prompt 'Content Calendar' with Claude (incorporates style from Day 5.6)	60	Claude + content-pillars.md	day-30 calendar
11.3	Generate first batch	Produce 5 posts/scripts with brand voice	60	Claude	ready-to-5 publish pieces
11.4	Schedule weekly competitor monitoring	Set up Octoparse/Apify MCP + /schedule weekly report	45	mcp.octoparse.com / apify.com	Auto-monitoring on

يوم 12 — Data & Analytics (~1.8 ساعة) 17 يوليو

#	التاسك	الخطوات	⌚	الأداة	النتائج
12.1	Pick analytics stack	Plausible/Umami + GA4 + Search Console + PostHog (heatmaps)	30	Each tool's site	Accounts created
12.2	Watch Claude Data Analysis	Without spreadsheet: claude code data analysis	20	www.youtube.com/watch?v=we4J_lgPeQA	Notes
12.3	Connect data to Claude	Postgres/Supabase MCP or upload CSV exports weekly	60	Claude	Data flows in

يوم 13 — Git Skills (~4 ساعة) 17 يوليو

#	التاسك	الخطوات	⌚	الأداة	النتائج
13.1	Watch freeCodeCamp Git/GitHub	crash course 2026	180	www.youtube.com/watch?v=mAFoROnOfHs	Notes
13.2	Practice 10 commands	init, clone, add, commit, push, branch, checkout, merge, rebase, pull	60	Terminal	Comfortable

يوم 14 — GitHub Actions (~4.5 ساعة)

#	التاسك	الخطوات	⌚	الأداة	النتائج
14.1	Watch DevOps Directive	Complete GitHub Actions course	180	www.youtube.com/watch?v=Xwpi0ITkL3U	Notes
14.2	Add Claude GitHub Action	install-github-app inside/ Claude Code	30	code.claude.com/docs/en/github-actions	claude@ works in PRs
14.3	Add CI workflow	build.yml + deploy.yml for your site repo	60	/github/workflows.	CI green

يوم 15 — 3D Site (Day 1) (~2 ساعة)

#	التاسك	الخطوات	⌚	الأداة	النتائج
15.1	Watch Three.js 101	Crash course	90	www.youtube.com/watch?v=KM64t3pA4fs	Notes
15.2	Scaffold project	npm create vite@latest brand-3d --template react-ts; install three @react-three/fiber @react-three/drei gsap tailwindcss	30	Terminal	Project running

يوم 16 — 3D Site (Day 2) (~6.5 ساعة)

#	التاسك	الخطوات	⌚	الأداة	النتائج
16.1	Watch JS Mastery 3D Portfolio	Free 5h tutorial	300	www.youtube.com/watch?v=kt0FrkQgw8w	Notes + sample built
16.2	Add Hero with 3D logo	R3F + Drei <Float>, <Environment>, <<OrbitControls	90	VS Code + Claude Code	Hero working

يوم 17 — 3D Site (Day 3) (~12 ساعة)

#	التاسك	الخطوات	⌚	الأداة	النتائج
17.1	Watch JS Mastery Creative Frontend	10h GSAP + Three.js + React	600 split) over 2-3 (days	www.youtube.com/watch?v=ATdaYQw0ptk	Notes + components built
17.2	Add scroll-driven animations	GSAP ScrollTrigger camera dolly + section reveals	120	VS Code + Claude Code	Scroll animations live

يوم 18 — 3D Site (Day 4) (~6 ساعة) 17 July

#	التاسك	الخطوات	الوقت	الأداة	الناتج
18.1	Build remaining sections	Story / Products / Local Proof / Contact	240	VS Code + Claude Code	Sections built
18.2	Optimize performance	Compress models, lazy-load, mobile test, Lighthouse run	120	glTF-pipeline + Lighthouse	Lighthouse score >= 75

يوم 19 — Launch (~2.8 ساعة) 17 July

#	التاسك	الخطوات	الوقت	الأداة	الناتج
19.1	Connect domain	Buy domain; point to Vercel/Netlify	30	Namecheap/CLOUDFLARE	Domain live
19.2	Deploy to Vercel	git push -> Vercel auto-deploys; add ANTHROPIC_API_KEY secret	30	vercel.com	Live URL
19.3	Add analytics tags	Plausible script + GA4 + PostHog snippet	30	Each provider	Analytics flowing
19.4	Submit to Search Console	Verify ownership; submit sitemap.xml	20	search.google.com	Indexing started
19.5	Publish first content	Post the 5 pieces from Day 11; announce launch	60	Each platform	Launch post live

يوم 20 — Iterate (~4.5 ساعة) 17 July

#	التاسك	الخطوات	الوقت	الأداة	الناتج
20.1	Weekly Claude analytics report	Claude reads PostHog/GSC via MCP and ships PR with 3 improvements	60 (weekly)	Claude + GitHub MCP	Auto-report PR
20.2	Monthly competitor re-scan	Re-run Octoparse/Apify scrape; compare to baseline	90 (monthly)	Claude + scraping MCP	Diff report
20.3	Quarterly brand review	Revisit brand-context.md and brand-voice.md; update if positioning evolved	120 (quarterly)	Workbook	Updated docs

Idea Discovery 🛠️

اليوم	الأولوية	التسعير	ليه	اللينك	الأداة
Day 1	Must	Free	Mining pain points & unmet needs	reddit.com	Reddit
Day 1	Must	Free trial / paid	Replaces the discontinued Gummy Search. AI surfaces trending Subreddits + 'Pain & Anger', 'Advice Requests', 'Solution Requests', 'Top Content' views. Greg Isenberg's .primary tool	ideabrowser.com/join	IdeaBrowser (Gummy Search successor)
Day 2	Recommended	Free tier / paid	Find top creators / influencers in any niche. Step 3 of Greg's framework: 'Who are the top 10 YouTube creators' in [niche]	perplexity.ai	Perplexity AI
Day 3	Recommended	Free tier / paid	Quick wireframes / prototypes. Step 4 of Greg's framework: turn the idea into a 1-page mock + landing .page	framer.com	Framer
Day 3	Must	Free	Demand validation	trends.google.com	Google Trends
Day 1	Recommended	Free	Find subreddits by size (10K-100K sweet spot)	subredditstats.com	subredditstats.com

Validation 🛠️

اليوم	الأولوية	التسعير	ليه	اللينك	الأداة
Day 3	Optional	Free first score	pillar idea scoring-4	goflame.ai	FLAME

Competitor Analysis 🛠️

اليوم	الأولوية	التسعير	ليه	اللينك	الأداة
Day 4	Must	Free trial / paid	Auto-generates competitor SWOT in minutes	osum.com	Osum
Day 4	Recommended	Free trial / paid	Traffic / keywords / ads	semrush.com	SEMrush

اليوم	الأولوية	التسعيرة	ليه	اللينك	الأداة
Day 4	Optional	Free tier / cheap	Cheap SEO data	neilpatel.com/ubersuggest/	Ubersuggest
Day 4	Recommended	Free tier	Traffic estimates	similarweb.com	SimilarWeb
Day 4	Must	Free	All competitor ads	www.facebook.com/ads/library	Facebook Ad Library
Day 4	Must	Free	Local competitor reviews & locations	maps.google.com	Google Maps
Day 11	Optional	Paid	SEO + has Claude MCP integration	seranking.com	SE Ranking

Brand Mindset

اليوم	الأولوية	التسعيرة	ليه	اللينك	الأداة
Day 5	Recommended	Paid book	Foundation reading	www.martyneumeier.com/the-brand-gap/	Marty Neumeier book — The Brand Gap

Brand Build

اليوم	الأولوية	التسعيرة	ليه	اللينك	الأداة
Day 6	Must	Free	All frameworks from the 5h course	calebralston.com/startyourbrand/	Caleb Ralston Workbook
Day 5	Recommended	Free tier	Brand HQ document workspace	notion.so	Notion

AI / Claude

اليوم	الأولوية	التسعيرة	ليه	اللينك	الأداة
Day 9	Must	mo/\$20-200	Pro = projects + skills Max = best for heavy use	claude.ai	Anthropic Claude Pro/Max
Day 9	Must	Free with Claude account	Local app for MCP servers	claude.ai/download	Claude Desktop
Day 9	Must	Free + API usage	Best agentic AI on terminal	<code>npm i -g @anthropic-ai/claude-code</code>	Claude Code CLI

اليوم	الأولوية	التسعيرة	ليه	اللينك	الأداة
Day 10	Must	Free	Official skills (PDF/DOCX/PPTX/XLSX)	github.com/anthropics/skills	Anthropic Skills repo
Day 10	Must	Free	marketing skills 32 (CRO/SEO/copywriting)	github.com/coreyhaines31/marketingskills	Corey Haines Marketing Skills
Day 10	Recommended	Free	Vercel-curated Skills directory	skills.sh	skills.sh
Day 10	Recommended	Free / paid skills	Marketplace for MCP/Skills	mcpmarket.com	MCP Market
Day 10	Recommended	Free	Skills directory	mcp.directory	MCP Directory

Scraping / MCP

اليوم	الأولوية	التسعيرة	ليه	اللينك	الأداة
Day 11	Recommended	Free tier / paid	No-code scraping via Claude	mcp.octoparse.com	Octoparse MCP
Day 11	Recommended	Free tier / paid	Pre-built actors (Meta Ads / TikTok / IG)	apify.com	Apify
Day 11	Recommended	Free tier / paid	AI-friendly web scraping MCP	firecrawl.dev	Firecrawl

مكتبة ال (23) Prompts 7

كل Prompt جاهز للنسخ-الاصق في Claude أو ChatGPT. بَدِّل [النصوص بين الأقواس] بمحتواك.

Idea Discovery 🧠

Claude / ChatGPT Reddit Pain-Point Mining

You are an idea-discovery analyst. I'll paste 50 Reddit posts from [subreddit name]. For each post: 1) extract the explicit pain point, 2) categorize it (workflow / tool / cost / quality / experience / other), 3) score severity 1-5, 4) note if the user mentioned a willingness to pay. Output a Markdown table sorted by severity desc.

Claude / ChatGPT IdeaBrowser Three-Section Synthesis (Greg Step 2)

I'll paste 3 lists from IdeaBrowser for the audience [audience name]: (A) Pain & Anger top 30 posts, (B) Advice Requests top 30, (C) Solution Requests top 30. Tasks: 1) cluster recurring themes ACROSS all three lists; 2) for each cluster: severity 1-5 + frequency + 'why now' (timing trigger); 3) propose 5 brand/product ideas that solve the highest-scoring cluster; 4) flag the cluster with the LOWEST competition (most solution-requests, fewest existing tools).

Claude / ChatGPT Creator-Comments Insight Extractor (Greg Step 3)

I'll paste the top 30 comments from [N] popular YouTube videos by creators in [niche]. For each video: 1) what is the audience PRAISING (works); 2) what are they COMPLAINING about (gap); 3) what are they ASKING for that the creator hasn't covered (idea fuel). Then synthesize across all videos: 5 unmet needs the audience repeatedly expresses, ranked by frequency. End with 3 brand angles that would resonate.

Claude Wireframe Spec (Greg Step 4)

Idea: [paste 1-line idea]. Audience pain points: [paste top 5 from Greg Step 2]. Output a wireframe spec for a 1-page Framer prototype: 1) Hero (headline + subhead + CTA + visual concept); 2) Problem section (3 bullet pains in audience's exact language); 3) Solution section (how it works in 3 steps); 4) Social proof section (placeholder); 5) Pricing teaser; 6) Final CTA. Also propose 5 brand-name candidates that are catchy + relevant + .com-able.

Claude / ChatGPT

Top-Content Style Analysis (Greg Step 5)

Here are the top 20 posts of all time in [subreddit/audience]: [paste]. Analyze: 1) format mix (memes / long-form / lists / screenshots / polls / videos); 2) tone (irreverent / earnest / educational / story); 3) hook patterns; 4) average length; 5) common visual styles. End with: 'For a brand entering this audience, the content style that will resonate is X because Y.' Be specific.

Claude

ChatGPT/Claude History Audit

Below is a sample of my last 200 prompts to ChatGPT/Claude: [paste]. Group repeated themes. For each theme: 1) the recurring problem I face, 2) why no existing tool fully solves it for me, 3) a brand/product idea that would solve it, 4) who else likely shares this problem (audience size guess).

Claude

Friction Point Audit

Here are entries from my friction log: [paste]. For each, identify: 1) the manual workflow, 2) the inefficiency, 3) a 1-line product idea that automates or removes it, 4) ease-to-build score 1-5.

Validation

Claude

Pillar Idea Scoring-4

Score this idea: '[idea]'. For each pillar give a number 1-10 + 1-paragraph reasoning. Pillars: 1) Market Demand (search volume / Reddit complaints / 1-star competitor reviews); 2) Ease to Build (MVP in 30 days?); 3) Revenue Potential (price x audience size); 4) Personal Fit (interest + unfair advantage). End with: total /40, verdict, 3-step next action.

Claude

Onlyness Statement

Using brand-context.md, draft 5 'onlyness' statements in the format: 'We're the only [category] that [unique mechanism] for [audience] who want [outcome].' Then critique each one for clarity, differentiation, and memorability, and recommend the top one with reasoning.

Competitor Analysis

Claude + scraped competitor blogs/pages

Content Gap Analysis

You are a senior content strategist for [BrandName] (see brand-context.md). I scraped the following competitor blog/landing pages: [paste]. Tasks: 1) topic coverage map (Topic | Competitor | Depth 1-5); 2) 10 missing angles nobody covers well; 3) for each: working title / search intent / format / primary keyword / why it fits our brand voice; 4) rank by ROI (impact/effort).

Claude + Apify Meta Ad scrape

Ad Intelligence

Here are competitor ads from Meta Ad Library [paste]: 1) extract headline / primary text / CTA / format for each; 2) group by messaging theme; 3) identify the 3 ads running longest = winning ads; 4) reverse-engineer the winning formula; 5) propose 5 ad angles for [BrandName].

Claude + Reddit/X scrape

Social Listening

Search Reddit/X mentions of [Competitor] in last 30 days. 1) Extract top 20 high-engagement posts; 2) list top 10 user frustrations; 3) generate 5 content ideas that solve those frustrations from [BrandName]'s angle (in our brand voice).

Claude + Osum / SEMrush export

Competitor Teardown

Here is competitor data: [paste]. Produce: 1) feature matrix (us vs them); 2) messaging hierarchy comparison; 3) pricing strategy analysis; 4) 5 weaknesses we can exploit; 5) 3 features they have that we MUST add; 6) 3 features they have that we should DELIBERATELY refuse to add (Zag).

Brand Strategy

Claude with brand-context.md

Brand Strategist (Neumeier school)

Act as a senior brand strategist (Marty Neumeier school). Using brand-context.md, generate: 1) Positioning statement (1 sentence); 2) Onlyness statement; 3) 3 Zag opportunities ignored by competitors; 4) Brand archetype (Jung's 12) + reasoning; 5) Brand voice in 3 adjectives + 5 do's + 5 don'ts.

Claude Skill **Brand Voice Skill**

Skill: brand-voice. Always read brand-voice.md before writing. Apply: tone = [3 adjectives]. Always: [do's]. Never: [don'ts]. Before returning text, run a self-check: does it sound like a sentence we'd say? If not, rewrite. Output: final version + 1-sentence note on what you changed.

Local SEO 🧠

Claude **Local SEO Plan**

Act as an SEO expert specializing in local search. Our brand is [name] in [city]. Generate: 1) 30 long-tail keywords with local intent; 2) top 10 Google Business Profile categories; 3) 5 schema markup recommendations (LocalBusiness / FAQ / Product etc.); 4) outline for a 'Best [service] in [city]' pillar page; 5) 10 outreach targets for local backlinks.

Content 🧠

Claude with brand-context.md + content-pillars.md **Content Calendar**

Build a 30-day content calendar. Channels: Instagram / TikTok / LinkedIn / Blog. Format mix: 40% educational / 30% storytelling / 20% promo / 10% community. For each item: hook + body + CTA + hashtag set + posting time. Tied to brand pillars.

Data 🧠

Claude Code **CSV Profile + Insights**

Read [data.csv]. 1) Profile (shape / dtypes / null % / unique values). 2) Sanity checks; flag anomalies. 3) Hypothesis-driven analysis: top 3 drivers of [metric]; where do we lose users? 4) Output: markdown report + 5 charts (matplotlib).

Claude (long context) **Market Research Synthesis**

I've uploaded 10 PDF reports / podcast transcripts. Produce: 1) trends ranked 1-10; 2) emerging vocabulary; 3) quote bank (10 quotes with sources); 4) 5 strategic implications for our local brand.

3D Site 🧠

Claude Code 3D Site Spec

You're a creative developer. Design a 3-section Hero for a [industry] local brand. Section 1: 3D brand mark, floating, mouse-reactive lighting. Section 2: scroll-triggered timeline of brand story. Section 3: 3D product carousel. Output: 1) component tree (R3F); 2) asset list (.glb / textures); 3) performance budget; 4) code skeleton in TypeScript.

Claude Code Hero Component

You are a senior R3F developer. Read brand-context.md and brand-voice.md. Build a Hero component: floating 3D logo with subtle bobbing + scroll-triggered camera dolly-in + light follows mouse. Use TypeScript / R3F / Drei / GSAP.

Iterate

Claude with PostHog/GSC MCP Weekly Analytics Report

Pull last 7 days from PostHog and Google Search Console. Output: 1) top 10 pages by traffic; 2) top 10 search queries with impressions vs clicks; 3) drop-off funnels; 4) 3 specific improvements ranked by impact/effort; 5) draft a PR description for the top fix.

Claude + scraping MCPs Monthly Competitor Re-Scan

Re-run scrape of [list of competitor URLs]. Compare to baseline in /data/competitors-baseline.json. Output: 1) what changed (pricing / messaging / features / blog cadence); 2) any new ad themes; 3) 3 implications for us; 4) 1-page exec summary.

8 التوصية النهائية + Checklist اليوم 1

Checklist لو هتبدأ النهارده فعلياً ✓

- ☐ سجلت في [IdeaBrowser](#) (Free trial).
- ☐ فتحت Greg Isenberg #1 (<https://www.youtube.com/watch?v=8vXoI7IUroQ>) وانفجرت عليه كامل.
- ☐ عملت ملف [ideas.md](#) على جهازي.
- ☐ جريت 4 من Google Reddit hacks على مجالي.
- ☐ لقيت 10-5 subreddits بحجم 10K-100K member.
- ☐ صفتهم في "audience" واحد في IdeaBrowser.
- ☐ راجعت Pain & Anger / Advice Requests / Solution Requests.
- ☐ عندي 20 فكرة على الأقل قبل ما أنام.

أعلى 5 قرارات هتحسم النجاح 💡

1. متبدأش بناء البراند قبل ما تلاقي الفكرة. Greg Isenberg الأول، مش Caleb Ralston.
2. Subreddits 10K-100K members بس. ال Sweet Spot الذهبي.
3. اشتراك في Claude Pro/Max. توفير ساعات يومياً — مش ترف.
4. اشتغل بال workbook بتاع Caleb فعلياً. الفرق بين النجاح والفشل = هل خلصته ولا لأ.
5. [CLAUDE.md](#) في كل ريبو. هو ال rules اللي Claude يتبعها.

التكلفة التقريبية (USD/شهر) 📊

\$20	Claude Pro
\$100-200	Claude Max (لو heavy user)
~\$10/سنة	Domain
\$0 (Hobby)	Vercel/Netlify
Free trial → ~\$30/mo	IdeaBrowser
\$9	Plausible (analytics)
~\$25/شهر	الحد الأدنى
~\$300/شهر	كل ال paid tools
